# Typography Style Guide

*An editorial approach to digital design.*

---

01 / TYPEFACE SYSTEM

LIBRE CASLON DISPLAY

## *Designing with intention*

Primary display typeface · hero heading, section headings and expressive quotes

LIBRE CASLON TEXT

## Thoughtful digital experiences, shaped by clarity and creativity.

Reading typeface · body paragraphs and longer descriptions

SUSE MONO

01 / ABOUT 02 / WORK 03 / CONTACT

Interface typeface · navigation, section numbers, form labels, buttons and footer

---

## *Design principle*

Use expressive serif typography for content and hierarchy, balanced by restrained monospaced labels for navigation and functional information. Italics provide emphasis without adding another display family.

SPECIMEN NOTE / The PDF uses embedded typographic stand-ins for visual preview. The website loads the actual Libre Caslon Display, Libre Caslon Text, and SUSE Mono families through Google Fonts.

02 / HIERARCHY & USAGE

# Type specifications

*A consistent scale across the portfolio.*

| ELEMENT | FONT / STYLE | SIZE / LINE HEIGHT |
|---|---|---|
| Hero name | Libre Caslon Display · regular | clamp(4rem, 8vw, 7.5rem) / 1 |
| Hero tagline | Libre Caslon Display · italic | clamp(1.7rem, 3vw, 3rem) / 1.2 |
| Section headings | Libre Caslon Display · italic | clamp(2rem, 4vw, 4.5rem) / 1 |
| Body paragraphs | Libre Caslon Text · regular | 1rem / 1.7 |
| Navigation | SUSE Mono · uppercase | 0.85rem / inherited |
| Section numbers / labels | SUSE Mono · bold uppercase | 0.75rem / inherited |
| Form labels | SUSE Mono · bold uppercase | 0.75rem / inherited |
| Footer | SUSE Mono · regular / bold | 0.75rem / inherited |

03 / COMPOSITION RULES

Alignment — Headings and most copy are left aligned. About paragraphs use justified alignment with automatic hyphenation.

Spacing & tracking — Generous whitespace; tight tracking on large serif headings; expanded letter spacing on uppercase SUSE Mono labels.

Colour — Warm cream #F5F1E8 · near-black #171717 · muted indigo #4B4A78.

Responsive behaviour — Large headings use CSS clamp() and existing mobile breakpoints. Review long italic headings and justified paragraphs at narrow widths.

IMPLEMENTATION / Preserve existing layout, motion, and functional form elements. This guide documents the intended typography after the portfolio updates.
